

Care & Cleaning

For Best Results, Less is Best

Clean the bathing area with a soft cloth, sponge (safe for teflon surface) or soft brush and warm water. To soften mineral deposits, use a solution of vinegar and water. REMEMBER: Always thoroughly rinse your bath or shower system with warm water after cleaning.

DO NOT USE:

Your new bath or shower for at least 24 hours after installation or use recommended cleaning products for at least one week after installation. Do not ever use abrasive cleansers, such as Soft Scrub, Comet Scratch Free, cleaning powder or scouring pads. To test for abrasive agents, rub a small amount between your fingers ... if it is rough, it will scratch your acrylic system. Do not use any products with Ammonia-D or acetone (nail polish remover), any products using an aerosol propellant, products with harsh chemicals such as Lysol Disinfectant, Dow Disinfectant and Lestoil, crystal drain cleanser or any leave on cleansers.

Most store bought, non-abrasive and non-aerosol bathroom cleansers are safe to use, such as Glass Plus, 409, Fantastik, Kaboom and Scrub Free.

CLEANERS THAT SHOULD BE USED

Glass Plus
409
Fantastik
Kaboom
Scrub Free
Non-Ammonia Windex

CLEANERS THAT SHOULD NOT BE USED

Soft Scrub
Comet Scratch Free
Scouring pads
Scouring Cleansers
Ammonia-D
Acetone
Aerosol Cleansers
Lysol Disinfectant
Dow Disinfectant
Crystal Drain Cleaners
Daily Leave-On Cleansers

Silver Shield Makes BathWraps the Better Choice

Anti-microbial Protection that Never Stops Protecting

If BathWraps non-porous, virgin acrylic wasn't enough protection against the stain and odor problems caused by microbes, our systems offer you the added protection of Silver Shield. Infused into the acrylic for the lifetime of your bath or shower system, the silver ions in Silver Shield attack microbe cells to prevent bacteria from growing and reproducing. Silver Shield means extra cleanliness for your bathroom.

Why Silver Shield is Safe & Effective

Silver Shield employs silver ion technology. With Silver Shield infused into your BathWraps tub, shower, or wall liner, its silver ions continually emit charges that can penetrate microorganisms. Once penetrated, these cells lose their ability to grow and reproduce. Ultimately, BathWraps gives you double anti-microbial protection. BathWraps' non-porous, virgin acrylic systems prevent microbes from penetrating the surface and the Silver Shield silver ion technology helps prevent microbial surface growth. Cleaner. Fresher. Healthier.

SUPERCARGE your safety and protection with **Silver Shield**.
